

sQuid Dinner Money for Primary Schools

- Pupil pre-order on interactive whiteboard in classroom
- Reporting for UIFSM and FSM
- Interactive whiteboard to take pupil attendance every morning
- Fully auditable payments

A simple to use but powerful integrated cashless and attendance system, designed to administer and process Universal Infant Free School Meals (UIFSM), Free School Meals (FSM), Supervisor Allowances, Online Payments, Cash Payments and Payments by Cheque.

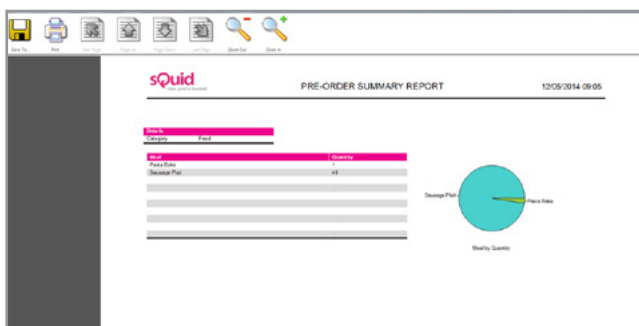

Pupil or teacher pre-orders the meal using interactive whiteboards in each classroom and takes the class register all at the same time. Full reporting facilities provide the catering manager with information they need. Print out the meal requirements for the day, quickly calculate the UIFSM and FSM claims, and we do the rest.

Why offer sQuid Dinner Money at your Primary School?

Cashless System

- Pupil pre-order on interactive whiteboard in classroom
- Allow children to claim UIFSM and FSM meals stigma-free
- Reduces queuing time
- Enables parents/school to monitor the child's/pupil's eating habits
- Saves you from trying to find dinner money every morning
- Eliminate the worry of lost dinner money
- Meal pre-order allows parents to choose their child's meal in advance
- Promoting healthy meals

Attendance System

- Pupils record themselves as present on interactive whiteboard in classroom
- Records back into the school MIS (Management Information System) automatically
- Releases extra time to teaching
- Reduces administration time

Extensive Reporting for UIFSM and FSM

- View pre-orders for your whole school, class or classes, and any uncollected pre-orders
- View transactions for a single user, group of users, or for your whole school
- Run reports on fund deposits and sales
- Run reports on free school meal allowances, and free school meal eligibility which is due to expire
- Run reports on the revenue of your cashless catering system
- View sales and popularity of each product you offer

Extensive Reporting

- All reports are available in PDF, Word Document, or Excel spreadsheet formats
- Preview reports before printing
- Reports in Microsoft Excel for further analysis or presentation
